Fuente: estimaciones del CONEVAL con base en el MCS-ENIGH 2010 y la muestra del Censo de Población y Vivienda 2010.

Nota: de acuerdo con la metodología de medición de pobreza publicada en el Diario Oficial de la Federación el 16 de junio de 2010, las estimaciones de pobreza que se reportan toman en cuenta la variable combustible para cocinar y si la vivienda cuenta con chimenea en la cocina en la definición del indicador de carencia por acceso a los servicios básicos en la vivienda.

Nota: las estimaciones municipales de pobreza 2010 han sido ajustadas a la información reportada a nivel estatal en julio de 2011. Pueden variar ligeramente debido a valores faltantes en el MCS-ENIGH 2010.

Nota: el ordenamiento del estado corresponde a su lugar en el contexto nacional y el de los municipios a su lugar en el contexto estatal. El ordenamiento se hizo de mayor a menor.

Nota: algunas cifras pueden variar por cuestiones de redondeo.
